

# Nanostring Seminar: Mapping the Universe of Biology

**SPATIAL  
BIOLOGY  
AT ANY  
SCALE**  
EXPLORE THE POSSIBILITIES

## PLEASE JOIN US!

The Mediterranean Center for Molecular Medicine (C3M) and Nanostring invite you to experience the possibilities of Spatial Biology at any scale.

Learn how GeoMx Digital Spatial Profiler and CosMx Spatial Molecular Imager address a broad range of applications at the tissue profiling, subcellular and single-cell levels.

## EVENT DETAILS

**11.00** Welcome & Introduction - Céline Jaimet, Nanostring  
**11.10** How can Spatial Multiomics influence your research? An overview of Spatial Biology Ecosystems - Jean-Baptiste Pénigault, Nanostring

**12.15** Q&A

*Project consultation on demand after the meeting*

**For more information or to RSVP, please contact:**

**Céline JAIMET**
